JERSEY TEMPLATES

CHOOSE YOUR TEMPLATE

Select from one of our hundreds of templates to start customizing.

CUSTOMIZE:

Fill panels with patterns and colors of your choice. Add your logos and numbering to complete your custom look. Template elements can be ghosted at a low opacity or highlighted in neon, the possibilities are endless!

CHOOSE YOUR BASE STYLE:

Traditional to modern, there is a style for every team. Three color templates are used for easy viewing but they are just the start. In this diagram we will show you some of the ways you can customize template elements.

DON'T LET TEMPLATES FOOL YOU CREATE YOUR UNIQUE LOOK

OPACITY:

Changing the opacity of elements allows you to tone down a busy design. Color and opacity of all elements can be changed to create a one of a kind look.

SUBLIMATION COLORS

3N2 has developed our sublimation color swatches based on the most popular colors used by sports teams around the world. Our art team has done extensive research to ensure that the selected Pantone colors match up with the most common shades of each color. The use of fades or special effects, such as glowing edges or shadows, will alter the appearance of these colors. In addition, colors may vary slightly when printed on different fabrics. The colors and Pantone colors shown below reflect the published Pantone colors closest to our exclusive 3N2 colors. These numbers and swatches should be used as a reference point only, as the 3N2 colors used for printing may vary slightly. Please contact your local dealer or sales rep with any questions prior to signing off on artwork.

+ NEW NEON INKS

3N2 cannot accept returns for product based on final color output, unless there is proven to be a significant variation between the color selected and that which is printed on the final garment. If you feel that an improper color was used in the printing of your garment, please contact your dealer or sales rep and 3N2 will perform a thorough investigation to determine the nature of the issue.

Furthermore, 3N2 does its very best to match the colors used in sublimation with those used for all other programs and products in our catalog. However, the use of different fabrics and inks for different products makes it impossible to get an exact match between a sublimation product and

a footwear or apparel item outside of the sublimation program. 3N2 will not be held responsible for any discrepancies in colors across product lines and returns will not be accepted on those terms. If you have any questions on how the products in your team package will match up, please feel free to request samples from your local dealer or sales rep.
